# 2015 Internet of Things (IoT) Survey

Summary

Current by GE IoT survey was distributed to building owners, managers and other industry professionals to gain insight into the awareness around the 'Enterprise Internet of Things' (E-IoT) and building automation technologies for smart buildings. The survey revealed that smart buildings are the core application for the enterprise Internet of things. The survey also validated Daintree Networks' continued belief that open standards-driven solutions enable the ability to future-proof smart buildings.
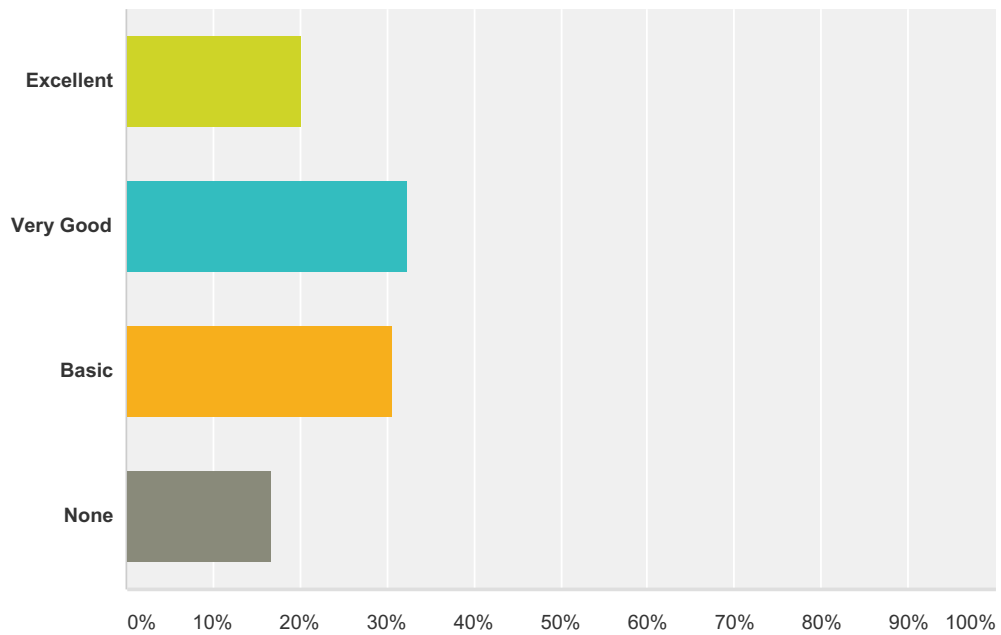

Q1 Have you heard the term Internet of Things?

Answered: 242   Skipped: 0
