ADVANCED SERVICES SYSTEM RESTORATION & RETRO-COMMISSIONING

NEXTGEN SYSTEM PROVISIONING

Glued Solutions System Restoration and Retro-commissioning services ensure your advanced networked controls system is not only operational but rehabilitated back to its original design intent. Through GSI's NEXTGEN Retro-commissioning, you can rest assured your system will continue delivering the same performance as when it was first installed.

Whether your system is only periodically reviewed or hasn't been reviewed since installation - a case of set it and forget it - GSI's NEXTGEN Retro-commissioning services will bring your system back up-to-speed. Our system technicians will diagnose and fix the critical system and device issues that are plaguing system performance, while also ensuring your digital infrastructure utilizes the latest software and hardware for even greater optimization.

WHAT MAKES SBT & GSI DIFFERENT?

As an industry leader since 2006, SBT Alliance division, Glued Solutions, has pioneered new and innovative ways - and technology tools - to deploy today's leading wireless control systems. Backed by our intimate understanding of networked wireless controls and extensive field experiences, GSI has the unparalleled expertise required to engineer and deploy even the most sophisticated IoT solutions successfully.
