Smarter Building Technologies Alliance

WHO WE HELP: COMMERCIAL CLIENTS

INTRODUCTION

Whether you have a portfolio of commercial buildings, a chain of retail storefronts, or a single office building, Smarter Building Technologies (SBT) Alliance provides you with the industry insight and technological know-how to engineer, deploy and support Internet of Things (IoT) solutions from start to finish.

Our comprehensive solution sets of IoT technologies and design know-how simplify the project engineering process. Our project engineers deliver leading IoT-based technologies that transform rooms into smart spaces while driving operational and energy efficiency to reduce operational expenses.

Some additional key features of IoT-based solution sets for commercial spaces include:

- *Comprehensive ongoing system service bundles to keep your system and IoT devices optimized.*
- *Streamlined project logistics to speed up construction timelines.*
- *Customized IoT-based solutions to address your specific data analysis and system control needs.*
- *Single vendor contract for the entire project and beyond.*
- *Full technical support prior, during, and post-construction.*

When it comes to commercial buildings, not all spaces are created equal. Various building types require different approaches to meet each building's unique needs. Smarter Building Technologies Alliance understands these needs to our core.

Whether it's developing the correct solution specification for a challenging application or a customized IoT application, SBT Alliance guides your organization step by step. Our goal is to ensure you receive a comprehensive smart building system that unlocks the additional insights required to drive value and operational efficiencies.

WHAT IS IOT?:

IoT or the Internet of Things is the extension of Internet connectivity into physical devices and everyday objects. Embedded within all kinds of electronics and other forms of hardware, these devices can communicate and interact with one another and connect to the Internet, allowing for remote data insights, monitoring capability, and advanced controllability.

COMMERCIAL/INDUSTRIAL CLIENTS

SBT

ALLIANCE

Smarter Building Technologies Alliance

HEADQUARTERS

6700 E. Pacific Coast Highway
Suite 235
Long Beach, CA 90803

REGIONAL OFFICES

Atlanta, GA Nashville, TN
Boston, MA Scranton, PA
Cleveland, OH

MFG / PRODUCTION

Sacramento, CA
Tijuana, MX
